

Benefits of Hosting T Level Industry Placements

Staff Professional Development

Managing T Level students offers staff a unique opportunity to enhance their leadership and management skills, supporting career development.

Contributing to the growth and success of students can bring a deep sense of fulfillment and professional satisfaction.

Raise Awareness

Promote your university as a significant employer and a fantastic place to work.

Collaborating with local providers will attract students to T Level qualifications and inspire more young people to pursue rewarding technical careers.

Technician Commitment

Hosting industry placements supports Technician Commitment action plans. This initiative increases visibility, career development and sustainability of your technical workforce.

Increase University Funding

Engagement with T Level industry placements provides evidence to support your self assessment score for the public community engagement perspective narrative statement, in the knowledge exchange framework (KEF).

Civic Duty Responsibility

Creating mutually beneficial partnerships within the region and offering invaluable opportunities to local young people, will demonstrate your commitment to the local community to gain and maintain community confidence.

Efficient Diverse Recruitment

Early, annual access to new, diverse talent allows you to assess potential candidates to fill employment or apprenticeship vacancies. It can also reduce costs associated with recruitment.

Technical Skill Development

Designing meaningful activities that cultivate essential, relevant skills for your technical teams will lay a solid foundation for a new generation of technical talent and your future workforce.

Support Social Mobility

Creating unique opportunities for young people from lower socio-economic backgrounds gives them access to insights and prospects they might not otherwise have.

Increase Productivity

Gain an extra pair of hands to boost support, increase productivity, and can help meet demanding deadlines. T Level students can assist by performing some of the duties of an existing apprentice when they are off-site.
